

PHYSICAL THERAPY

Maximize your mobility.

Joint Replacements

Fractures

Heart Conditions

Strokes

Balance Disorders

Weakness

Arthritis

Benefits of Physical Therapy

- Improve balance to decrease risk of falls
- Build leg strength so it is easier to sit, stand and use your walker or cane
- Increase and maintain overall muscle strength and endurance
- Restore and increase joint range of motion
- Reduce joint swelling/inflammation
- Decrease pain which will increase mobility
- Receive a personalized home assessment and exercise program, including education for you and your caregivers

Treatment Plan

Your therapy goals will reflect your diagnosis, needs, and abilities. Based upon your abilities and progress, therapy services can be provided up to six days a week and up to three hours a day.

Stand & Walk Sooner

The PneuWalker Unweighting System provides the sense of security necessary to improve balance and walking quality, thereby allowing the therapists to stand and walk the patient sooner.
