

STROKE REHABILITATION

*Benefit from advanced care
for improved outcomes.*

Rely on the experienced professionals at Dove Healthcare-West for compassionate care and support. **Helping you to regain independence is our top priority.**

A personalized program, directed by consistent, focused therapists:

- **Physical Therapy:** movement, walking, balance, and coordination
- **Occupational Therapy:** vision, eating, bathing, and dressing
- **Speech Therapy:** language skills, memory, and swallowing

State-of-the-art equipment:

- **Dynavision D2:** Improve hand and eye coordination and balance.
- **Quick Board:** Measure speed, reaction, balance, and coordination.
- **Dynatron Solaris Plus Series:** Reduce pain and stimulate muscles.
- **Myo Trac Infiniti:** Reeducate muscles via electro stimulation.
- **PneuWalker Unweighting System:** Stand and walk sooner, prevent falls.

Treatment Plan

Based upon your abilities and progress, therapy services can be provided up to six days a week and up to three hours a day. Your rehabilitation program is also enhanced by the expertise and support of nurses, nutritional services, recreation, and a social worker.
